

# ALPHA ISSUE #6

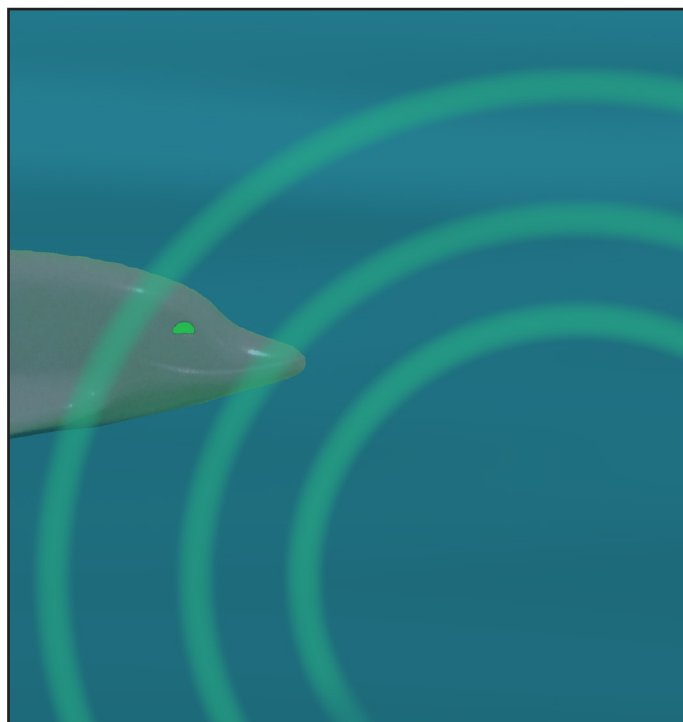

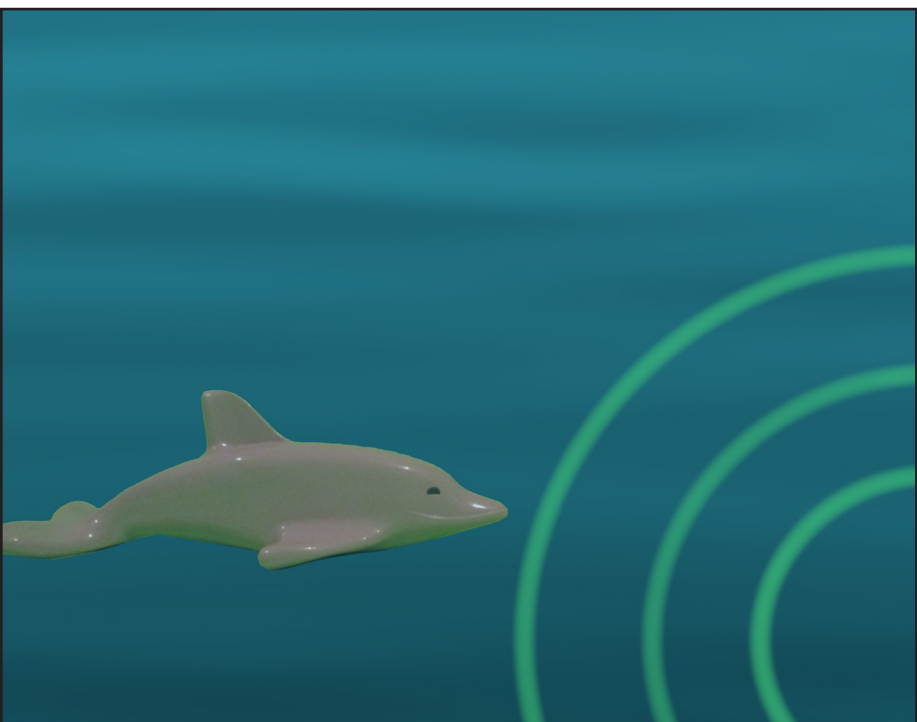

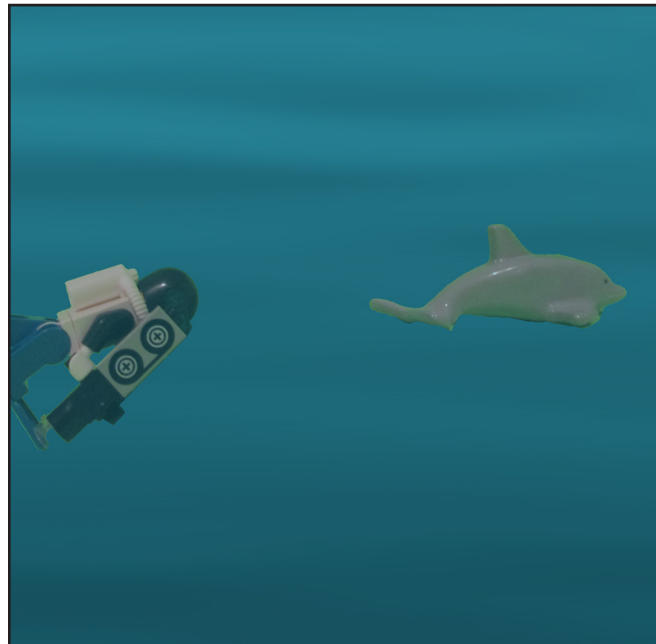

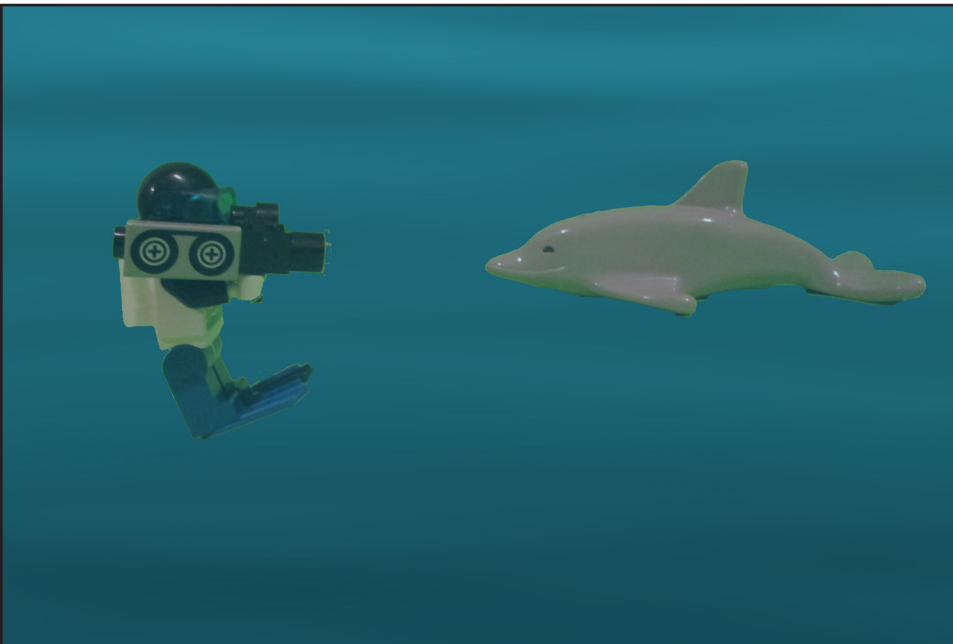

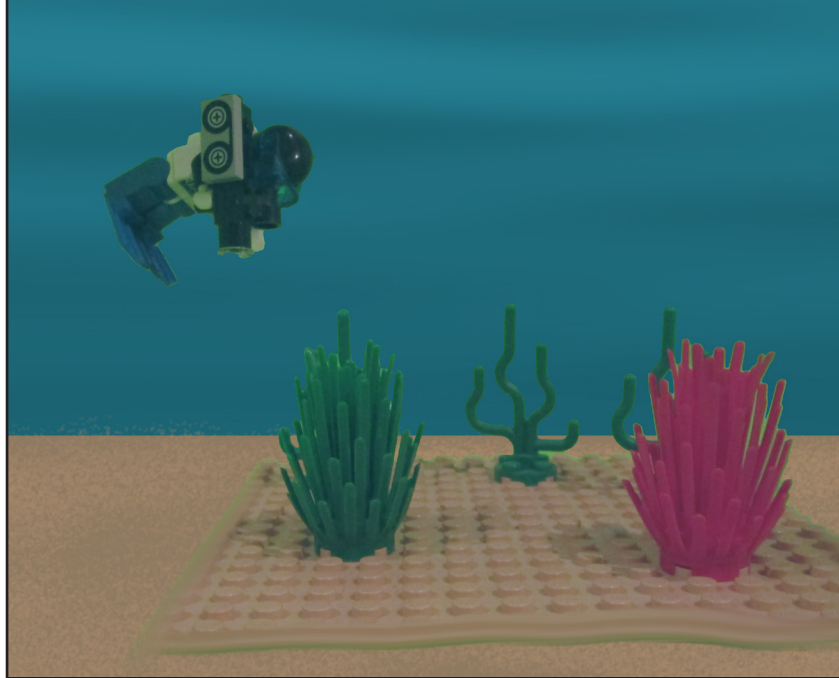

# TEAM

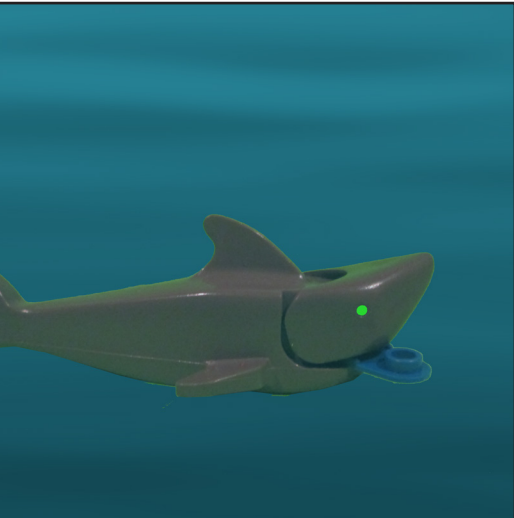

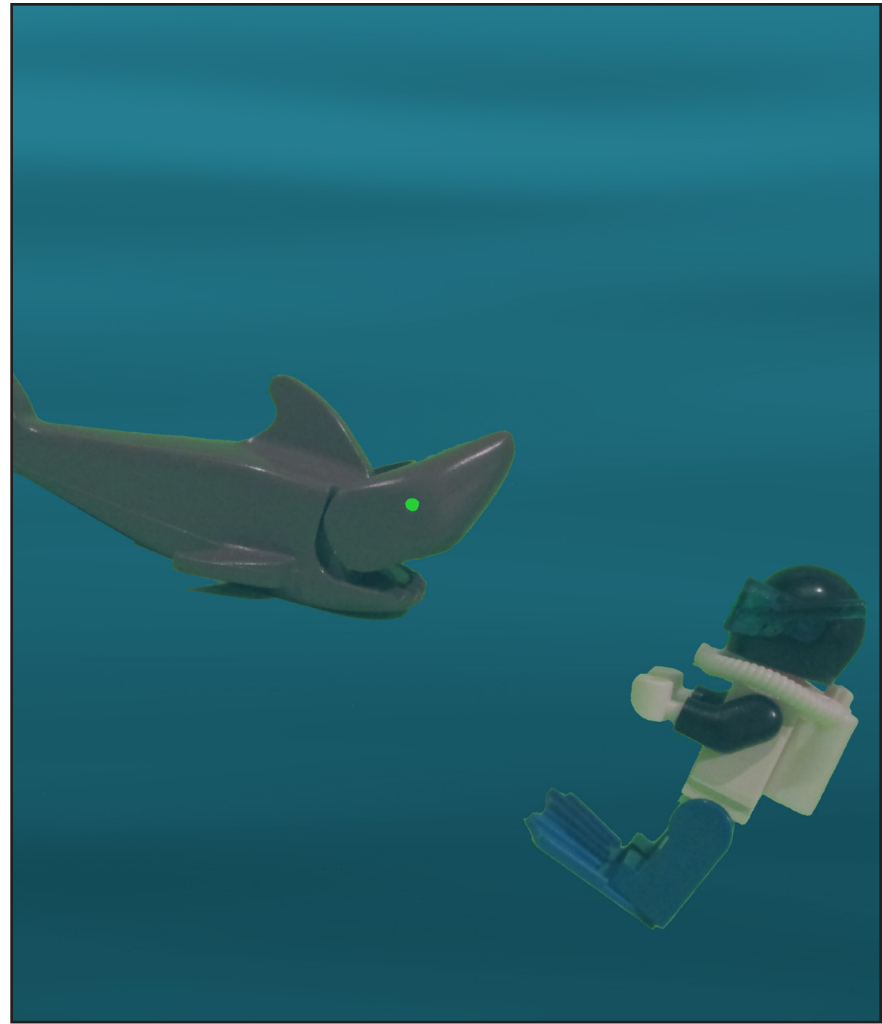

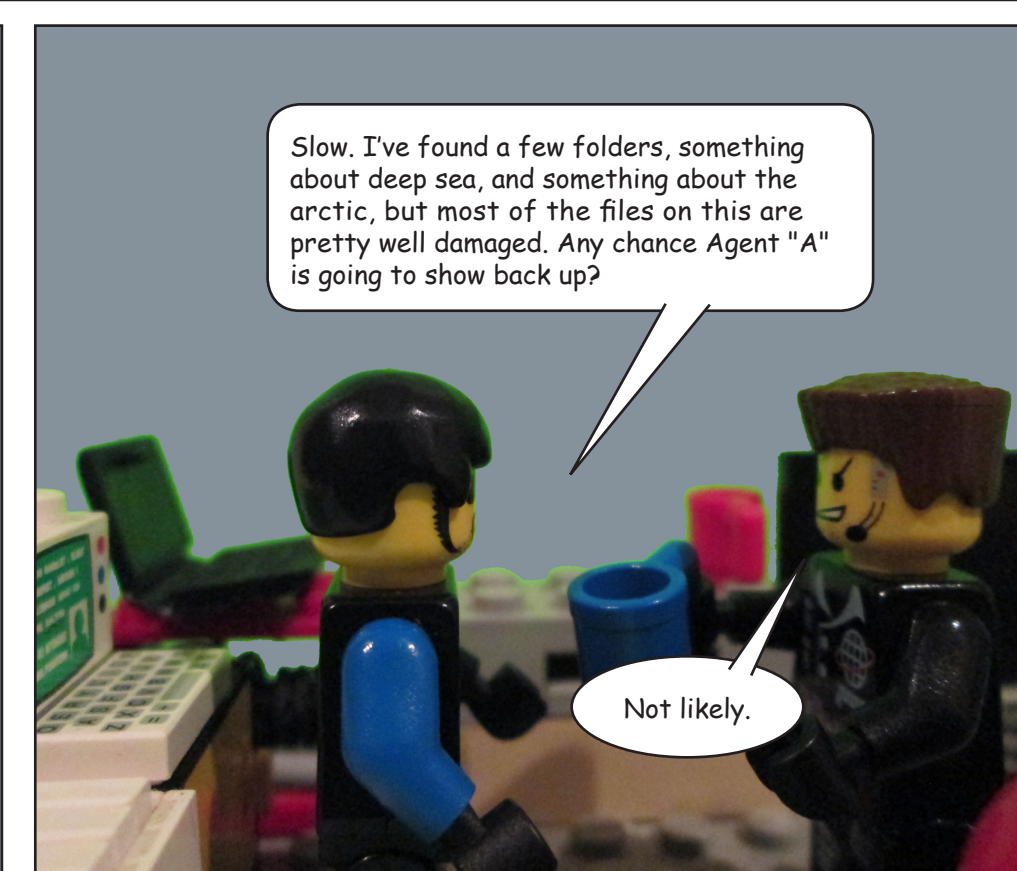

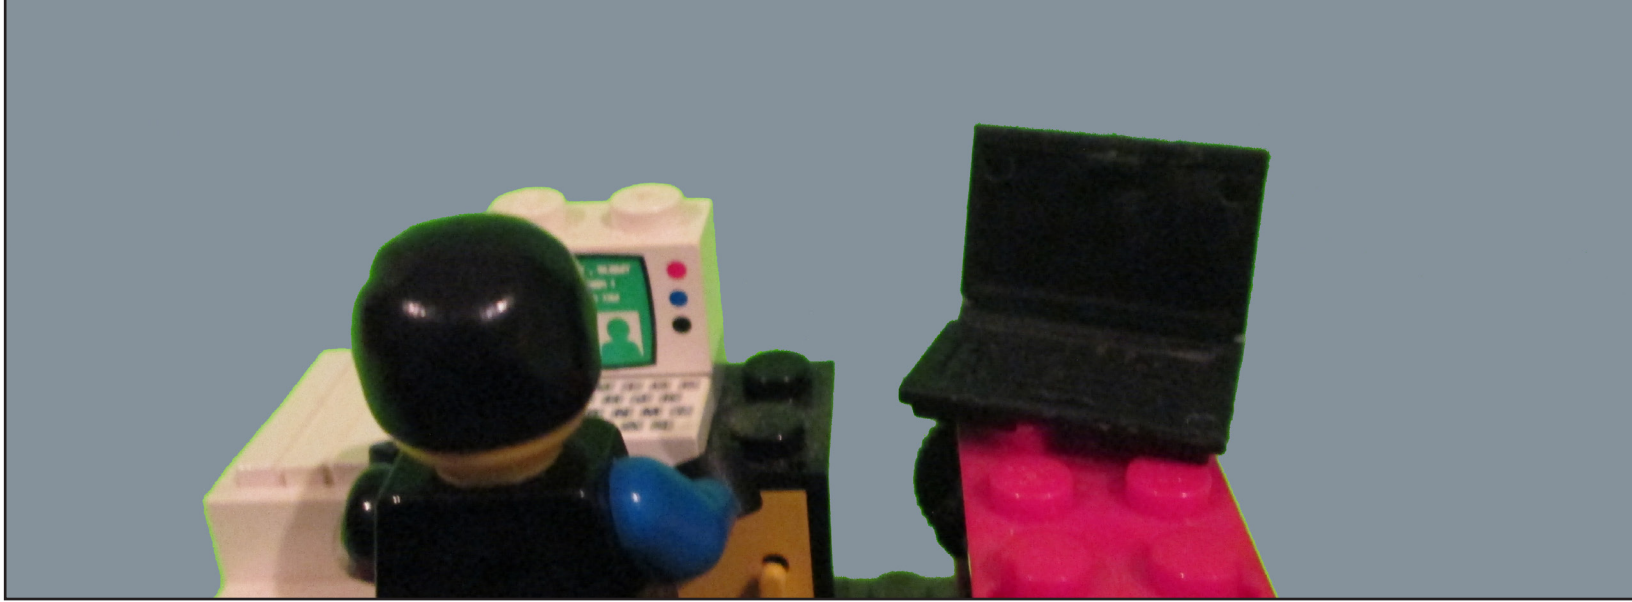

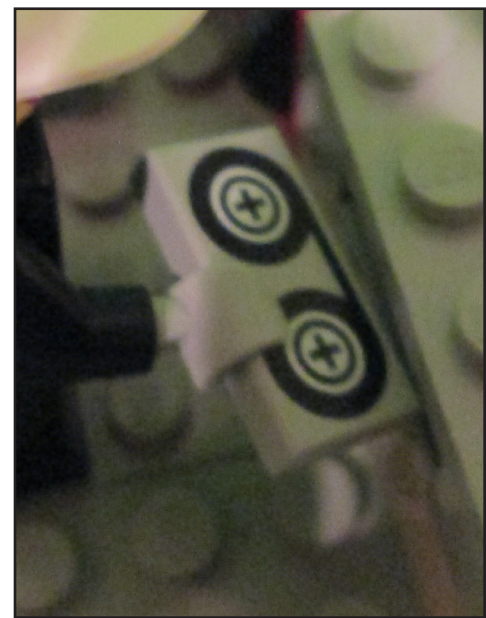

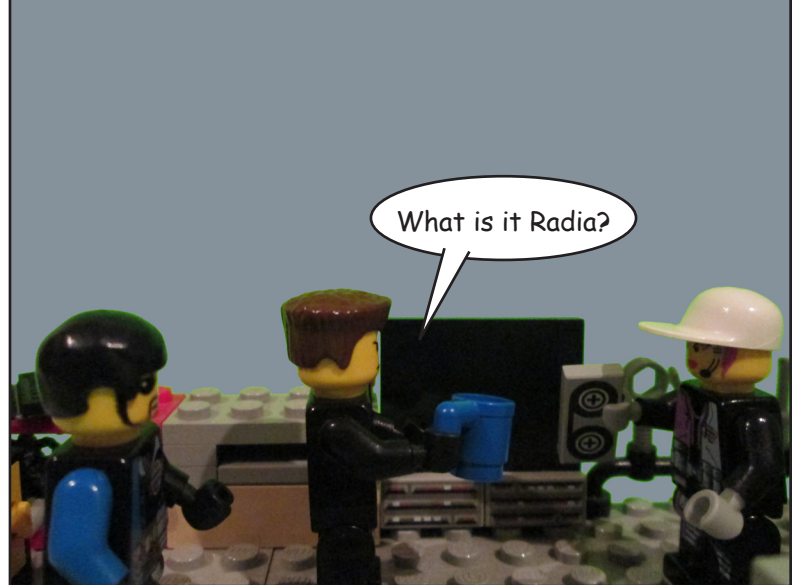

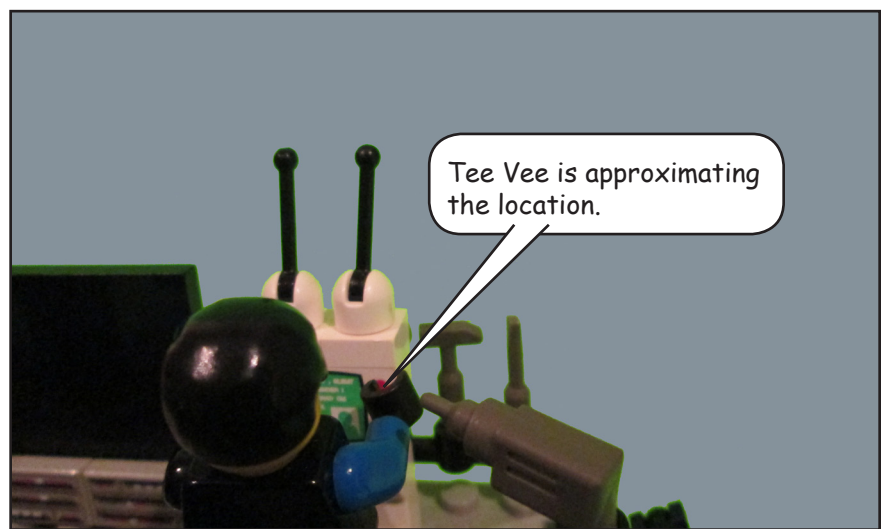

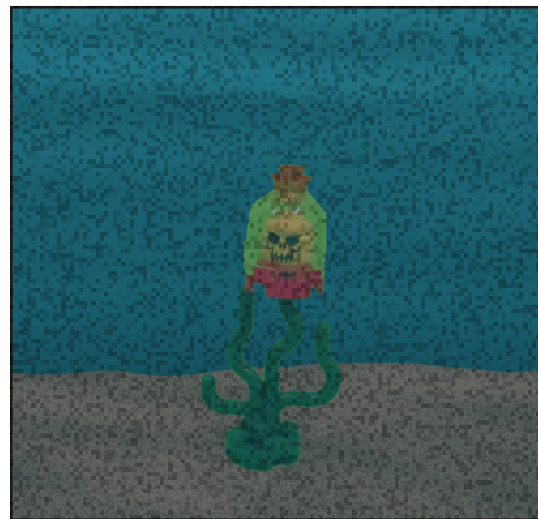

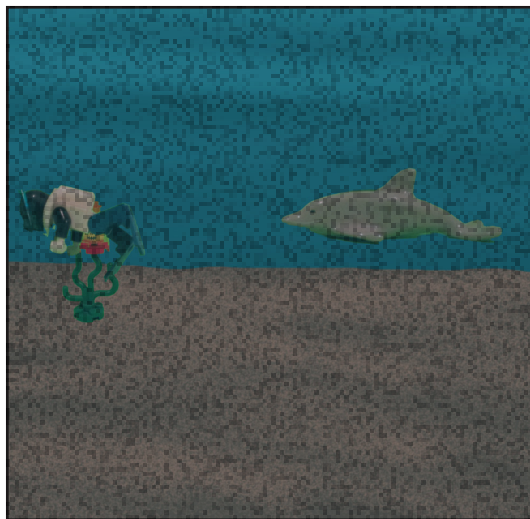

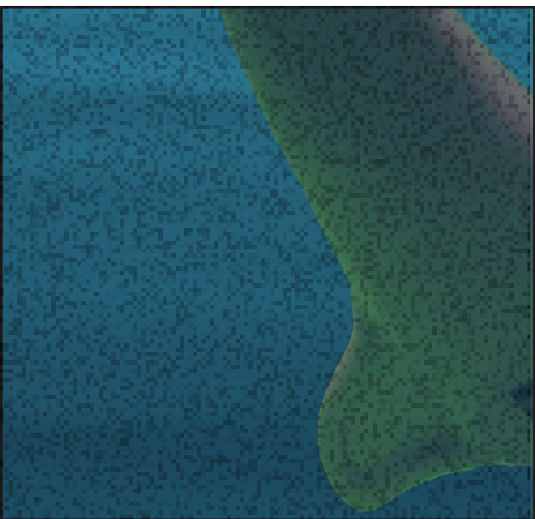

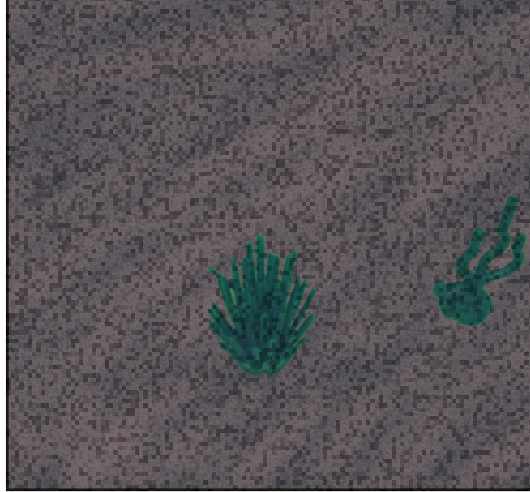

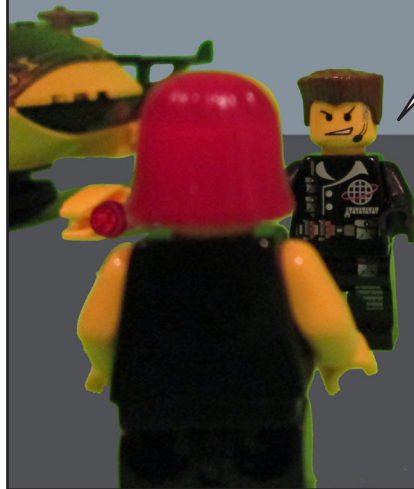

Checking out one of our new subs?

We have a new lead on Ogel and a new mission as well Cam.

And you want me as part of the mission?

I want you and Crunch in the conference room in 0200 hours.

You got that money you owe me Flex, or did you spend it on that new little hairstyle of yours

That game isn't finished yet Crunch.

Have you talked to Charge?

No, but don't you owe him too?

The game is not over.

Dash wants to see you. He believes to have a lead on Ogel. It sounds like he wants you for the investigation.

Finally.

Just don't come back dead.

This is the biggest lead we have gotten on Ogel in the past six months.

We want to be careful about how we approach this. We don't want to engage too early. Don't take any unnecessary risks.

We won't let you down Dash.

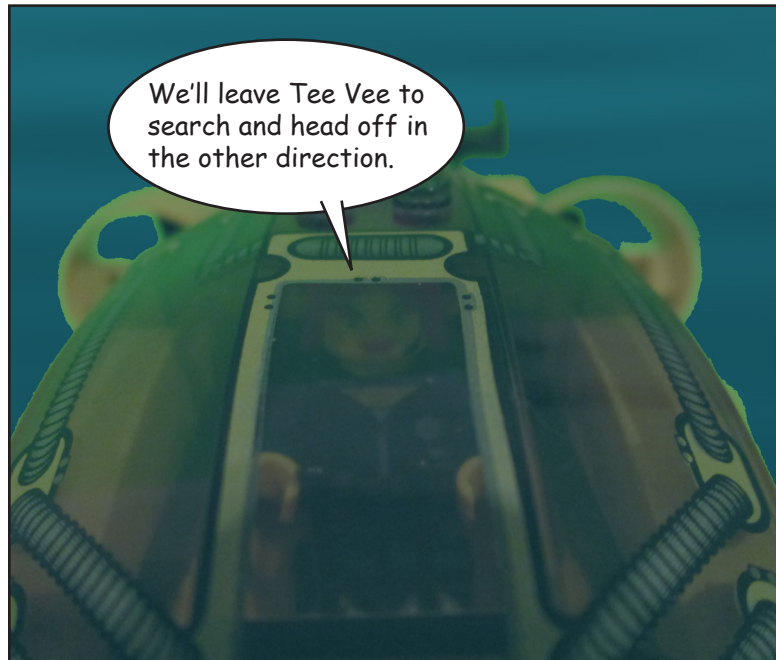

I know. Now get going.

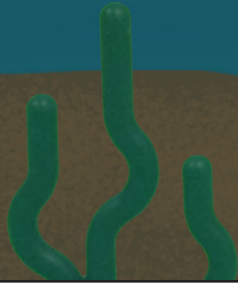

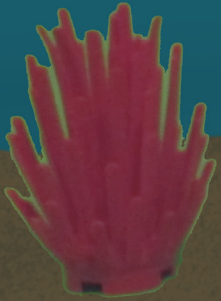

Releasing Tee Vee.

We'll leave Tee Vee to search and head off in the other direction.

I'm not seeing anything yet.

BEEP

Tee Vee's got something.

This is Ogel's work all right.

This one is giving off different readings than the previous orbs.

Tee Vee's got something on sonar.

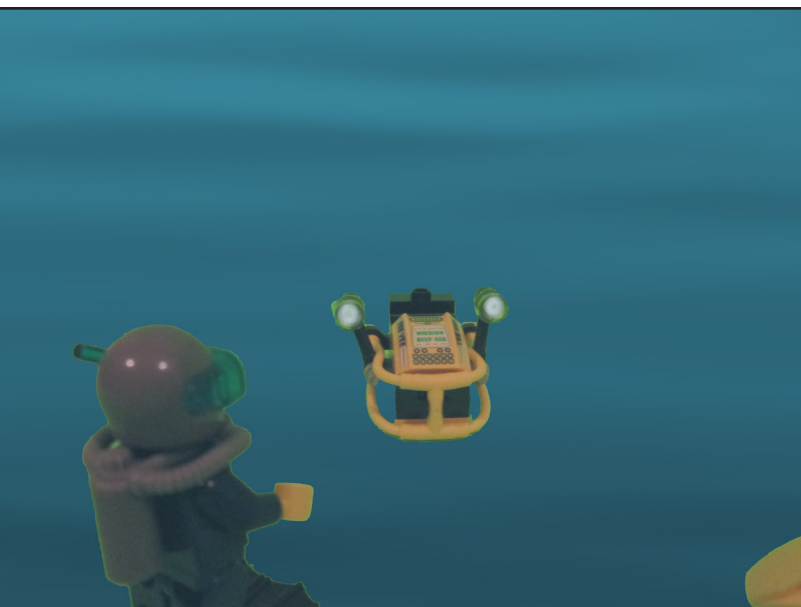

Something is different about this one.

AHHH

It looks like this orb has been reconfigured with sonar sensors. Giving Ogel control of the wildlife down here.

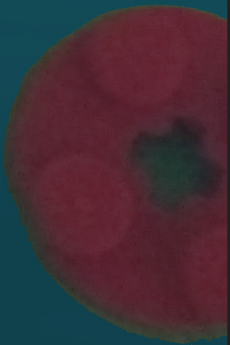

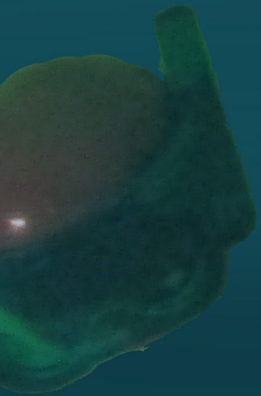

I need to go slow.

Crunch, Cam, come in.

CRUNCH, CAM!
