**#19**

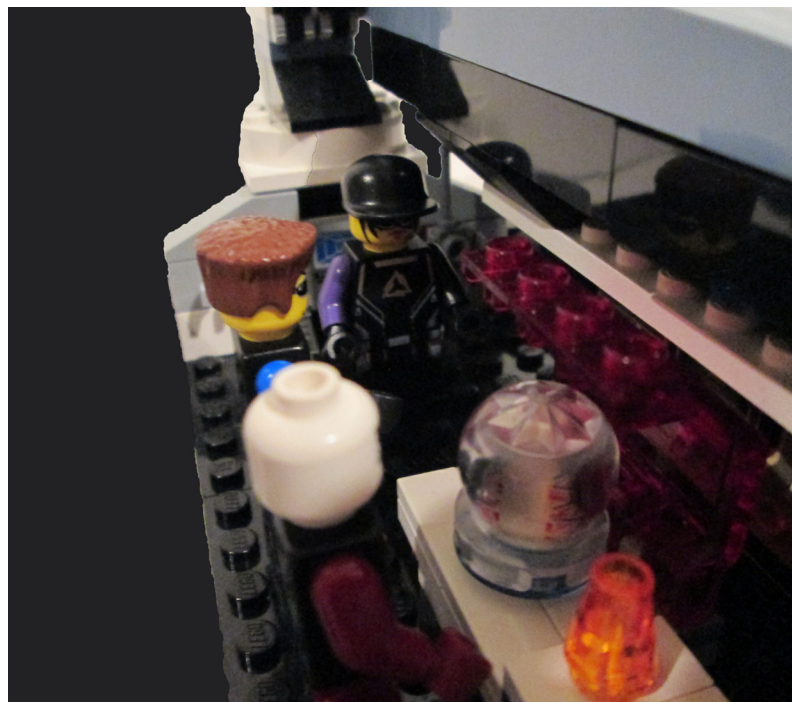

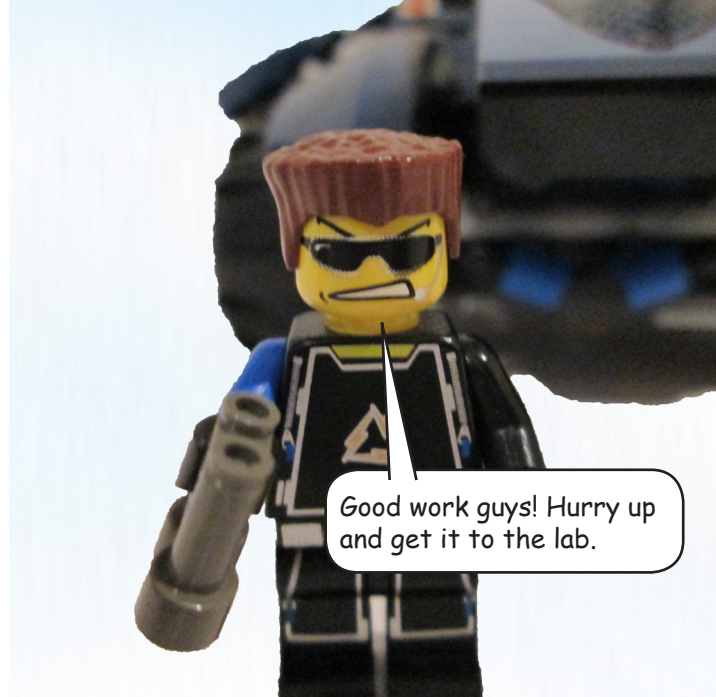

They're here!

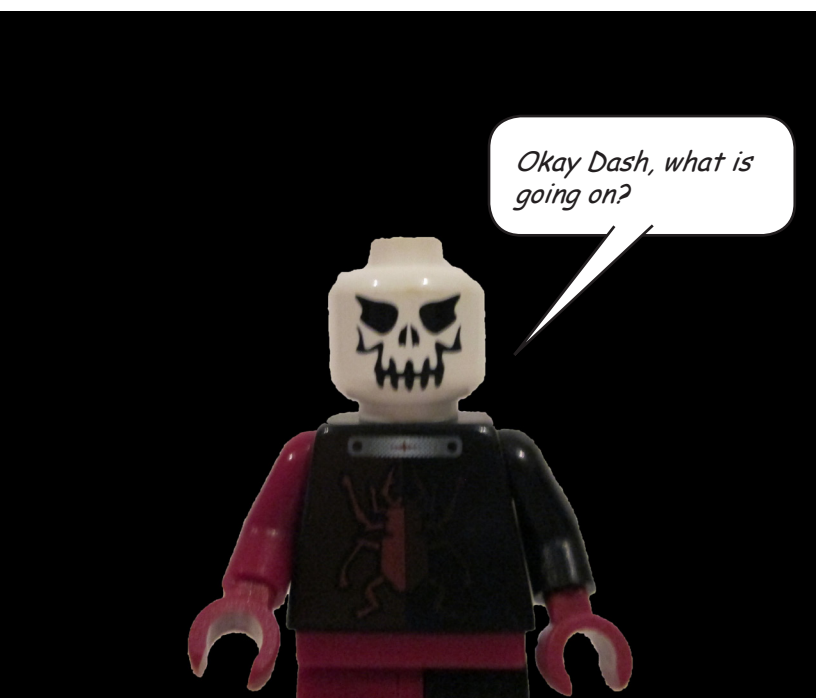

... I'll, give you two the room.

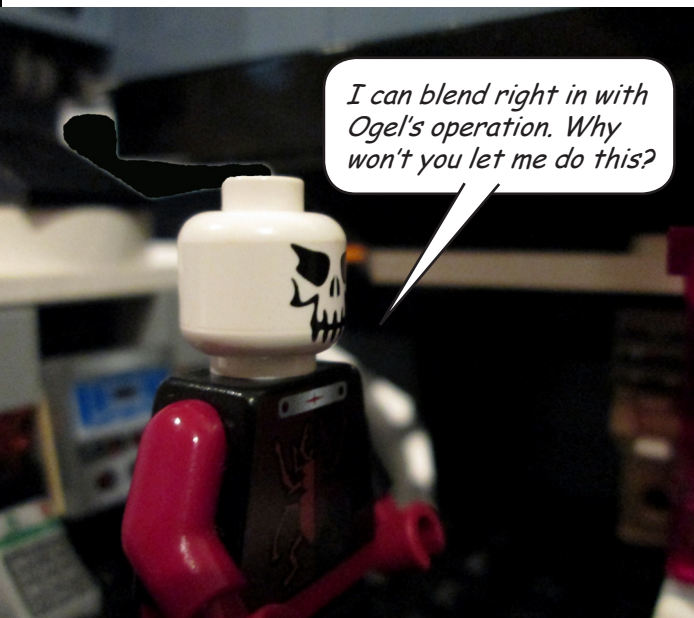

Cam-

Okay Dash, what is going on?

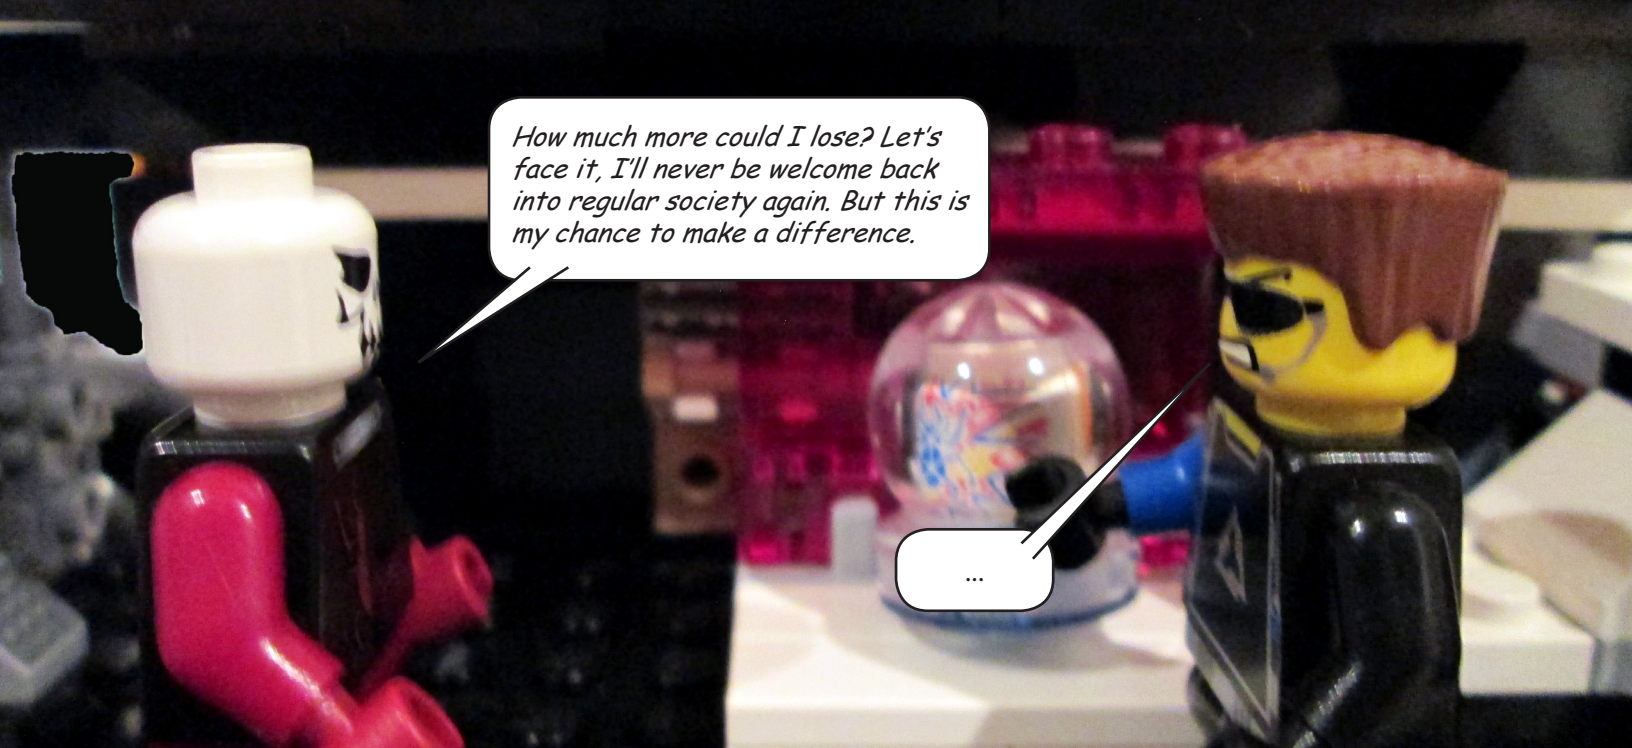

What do you mean?

I can blend right in with Ogel's operation. Why won't you let me do this?

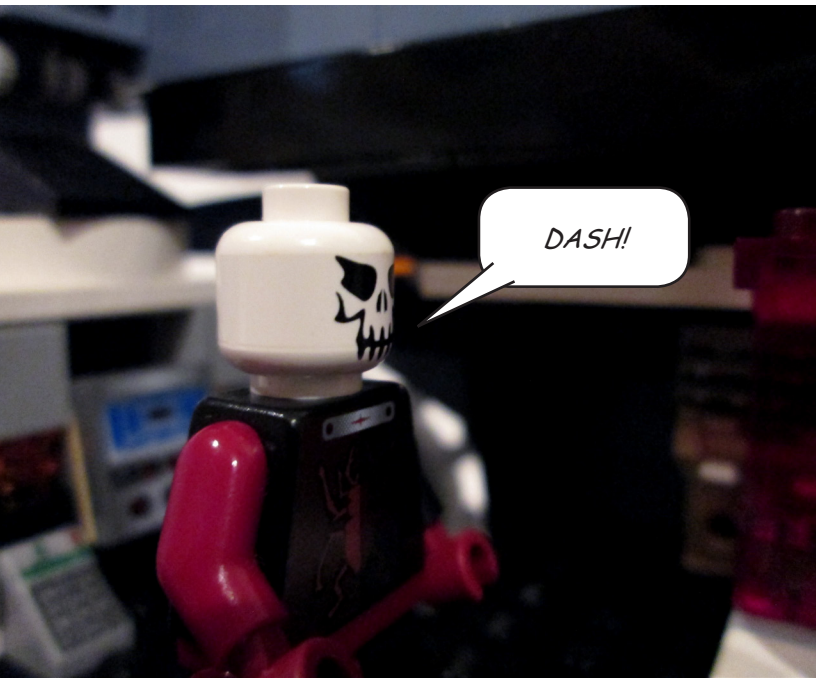

Maybe because last time I put you in the field, it didn't go so well.

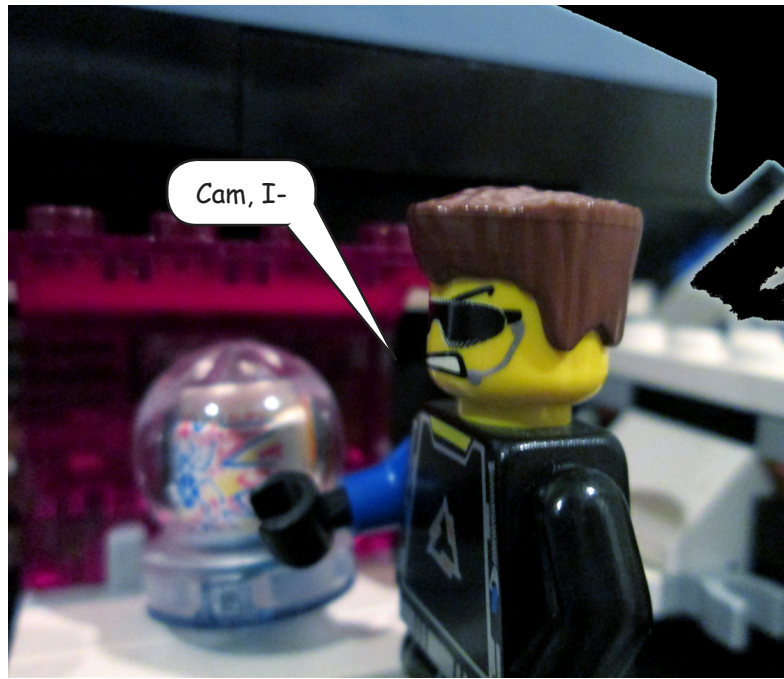

*How much more could I lose? Let's face it, I'll never be welcome back into regular society again. But this is my chance to make a difference.*

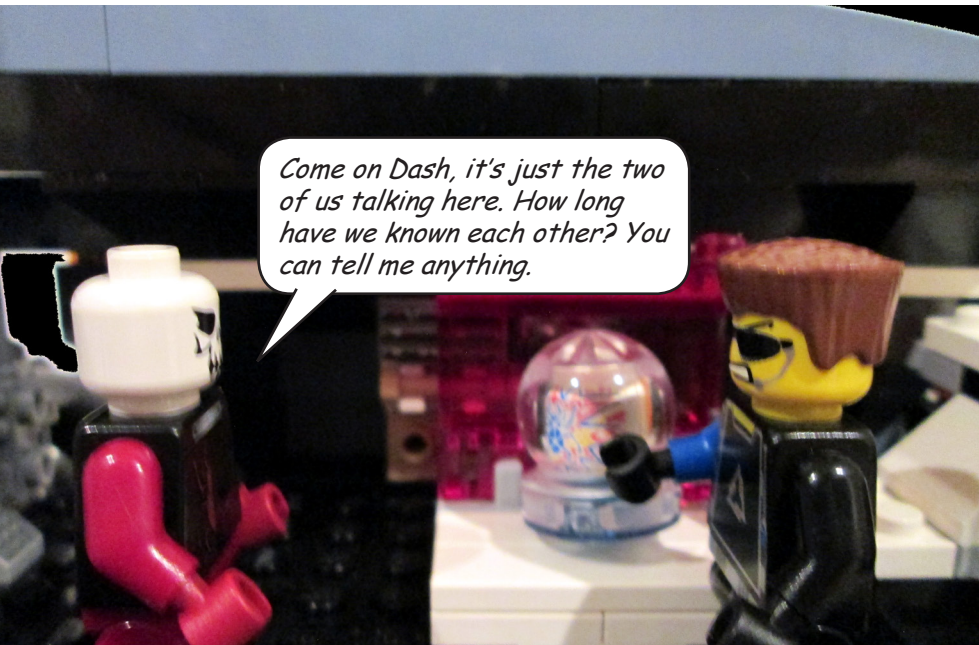

...

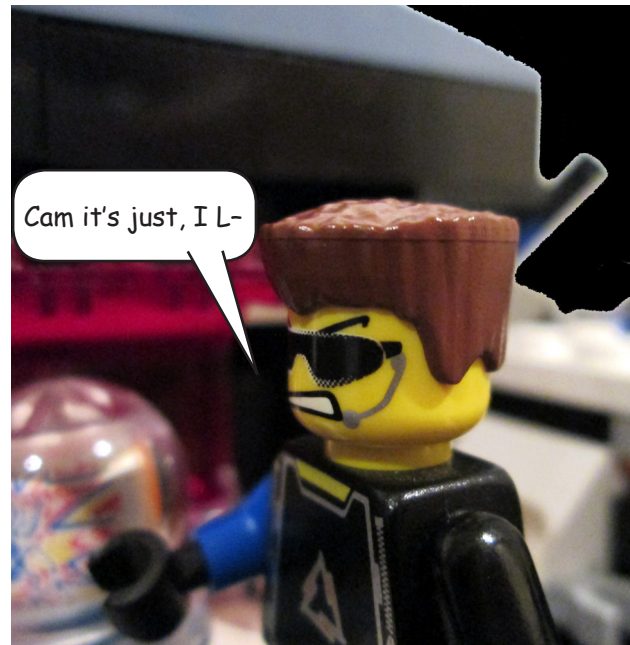

**DASH!**

Cam, I-

*Come on Dash, it's just the two of us talking here. How long have we known each other? You can tell me anything.*

Cam it's just, I L-

Guys, I think I've found something.

Arrow! What is it?

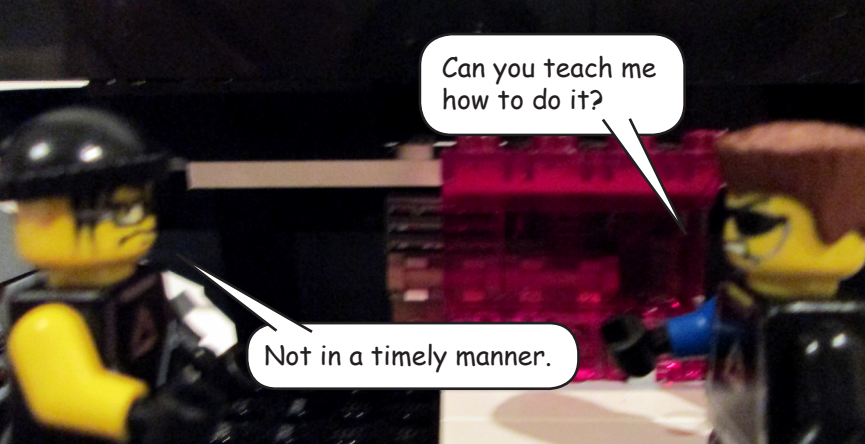

I think I found a way to deactivate the orbs.

You see a regular orb looks like this.

But after I tinkered with our other orb, the icon disappeared. There are no signs that this orb is active anymore either.

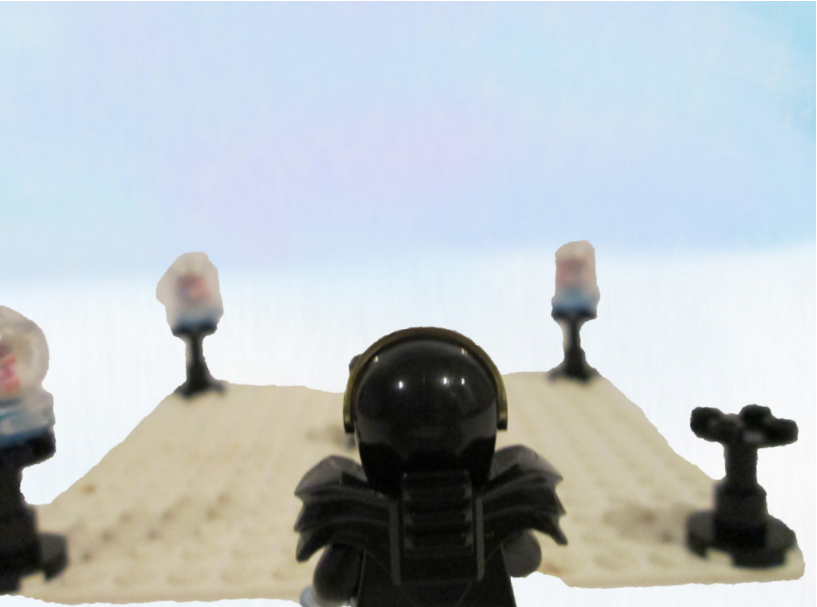

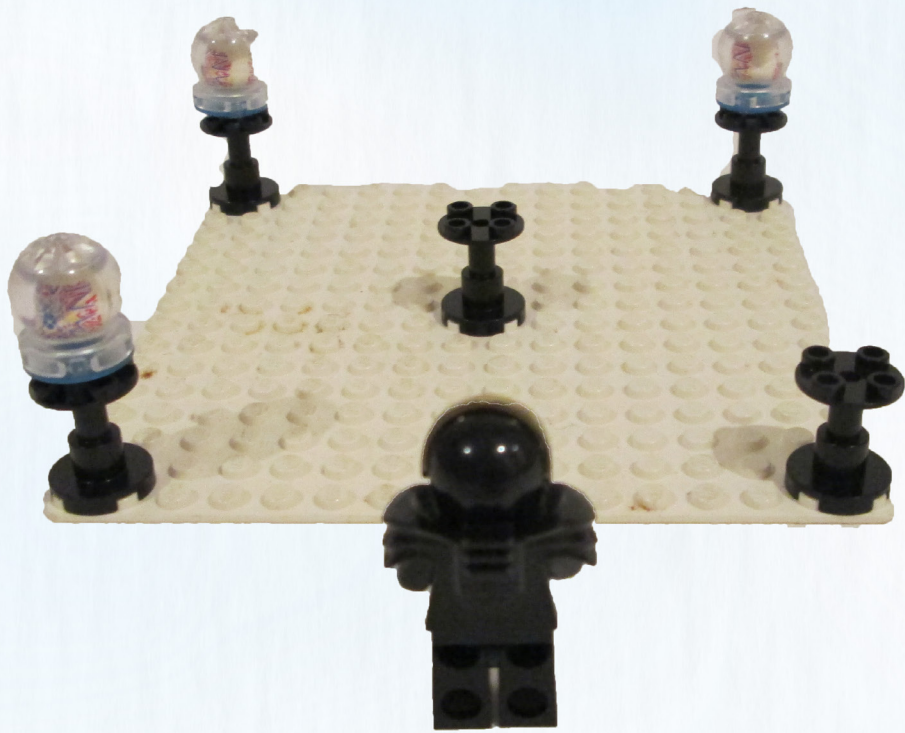

Can you teach me how to do it?

Not in a timely manner.

*We have to get into Ogel's base and deactivate his orbs.*

Master Ogel...

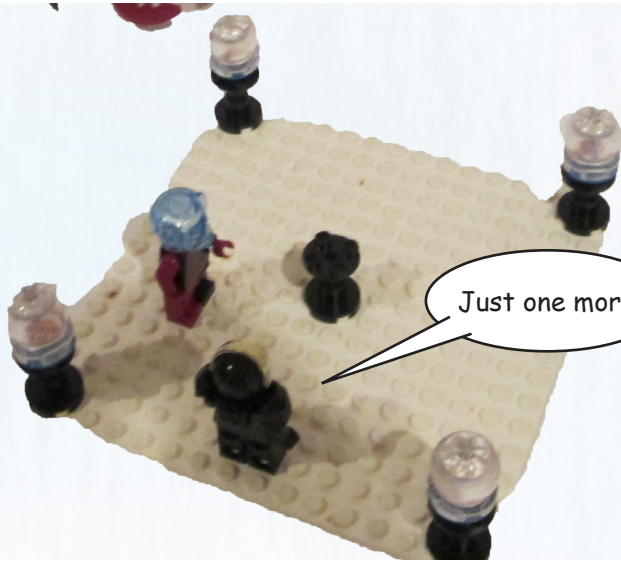

...we got another orb.

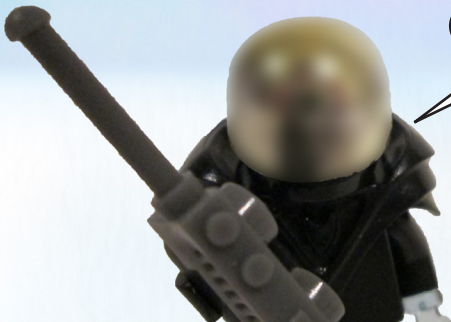

We're so close.

Just one more.

Agent "O" report.

Expect some company.

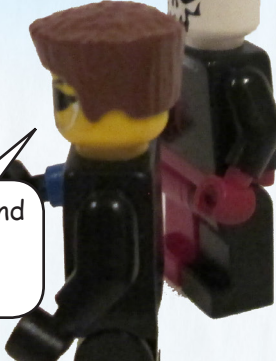

You're taking Arrow and Cam where?

Arrow has a way to deactivate the orbs, and Cam can get us into Ogel's base. We're going to end Ogel's plans once and for all.

Are you sure this is the best idea?

It's the best we've got. And the fact is we're running short on time.

*Radia, we have to take this chance.*

But Arrow? He's not ready.

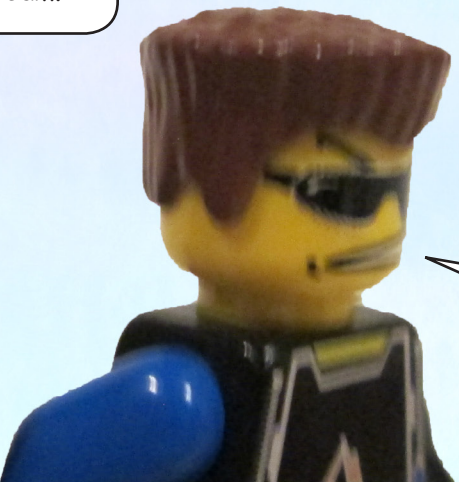

Flex, give me this chance to prove myself.

The stakes are too high.

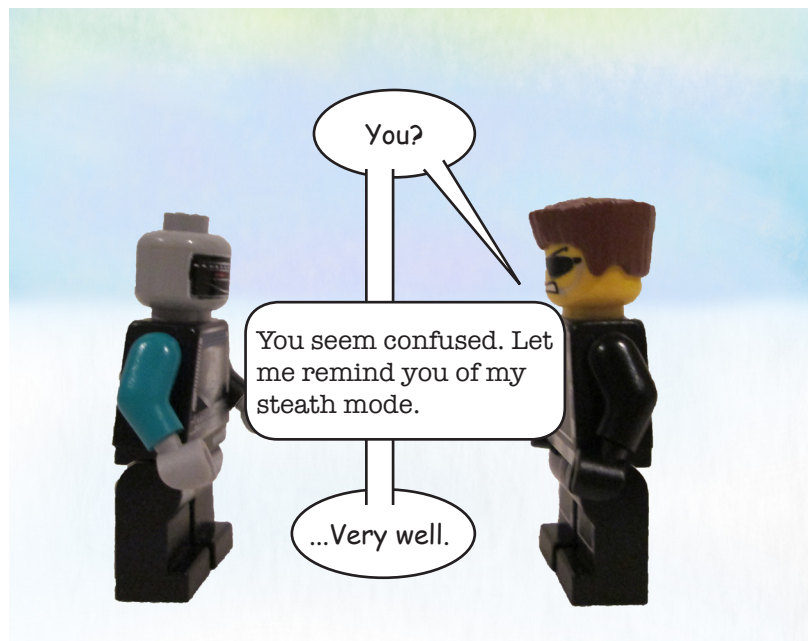

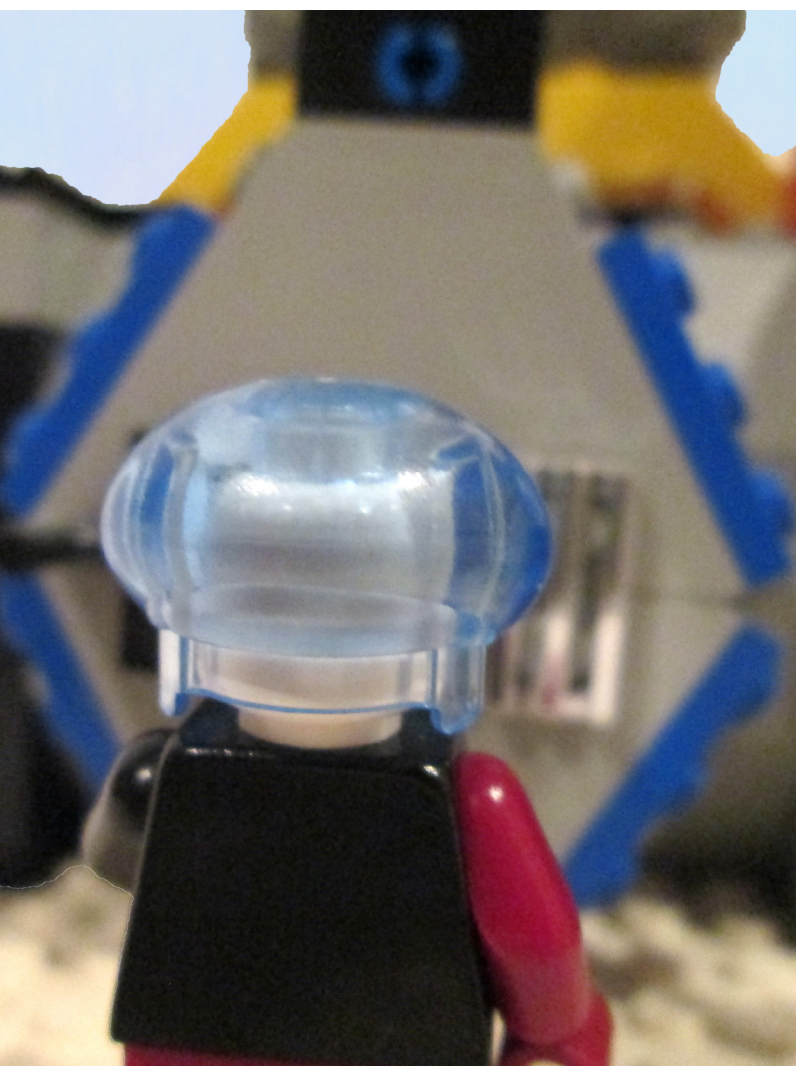

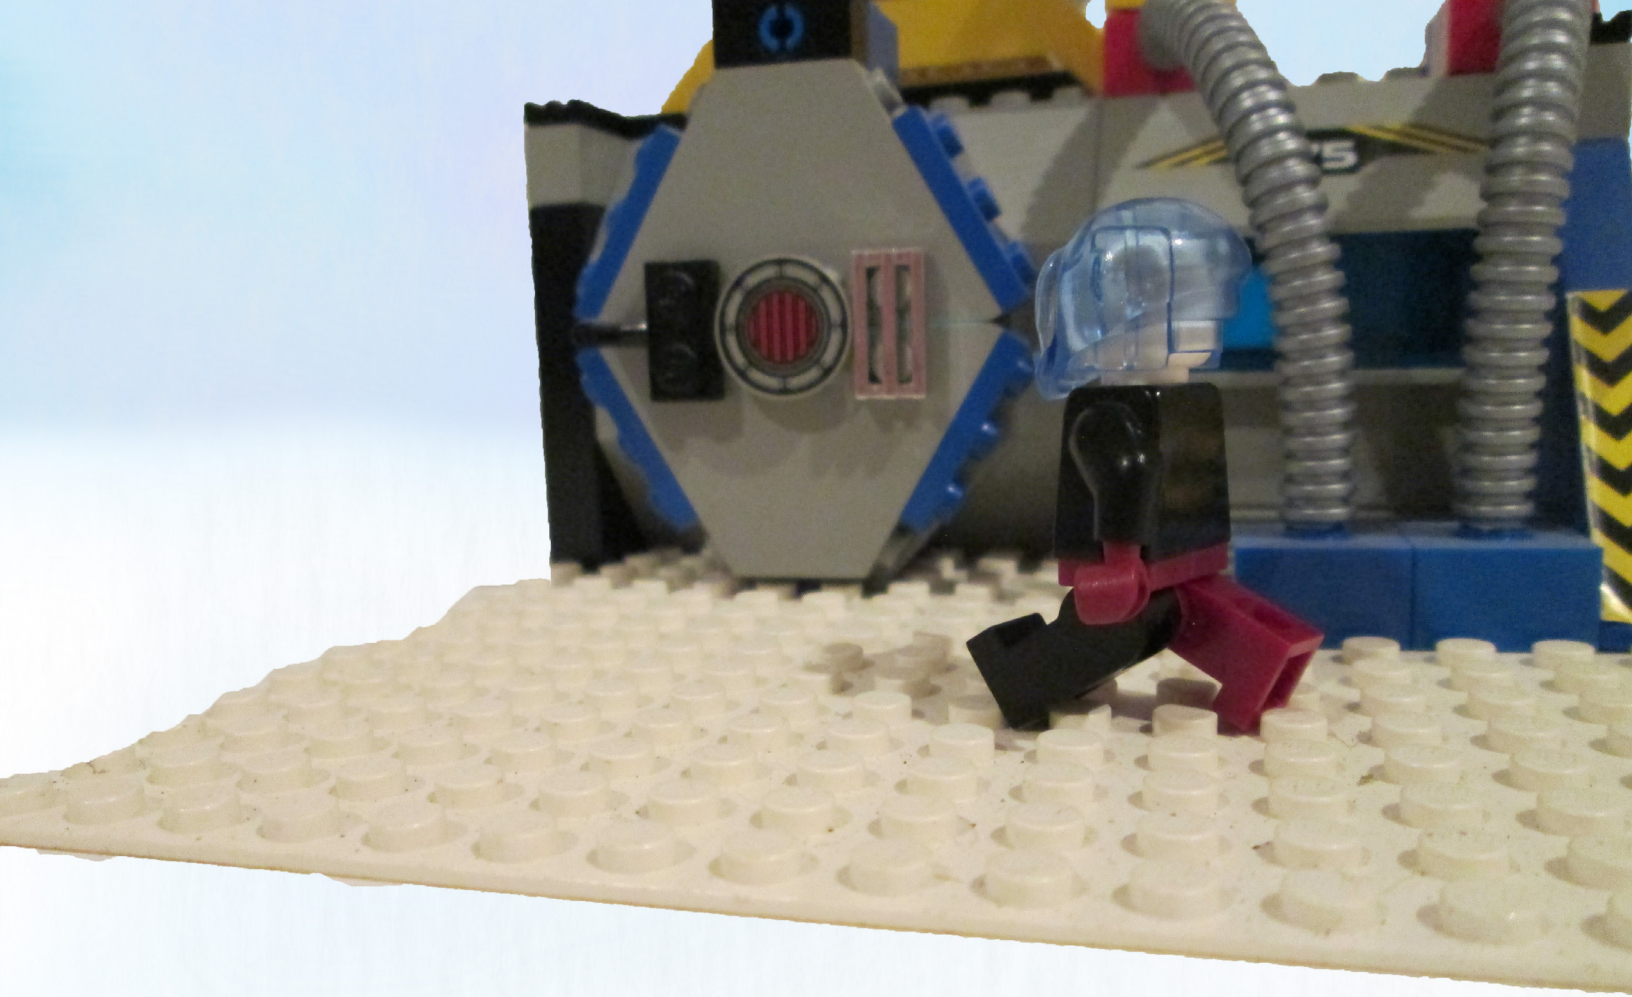

Yes they are. But Arrow is our best chance to deactivate the orbs.

Dash, just keep an eye on Cam.

I trust her Radia.

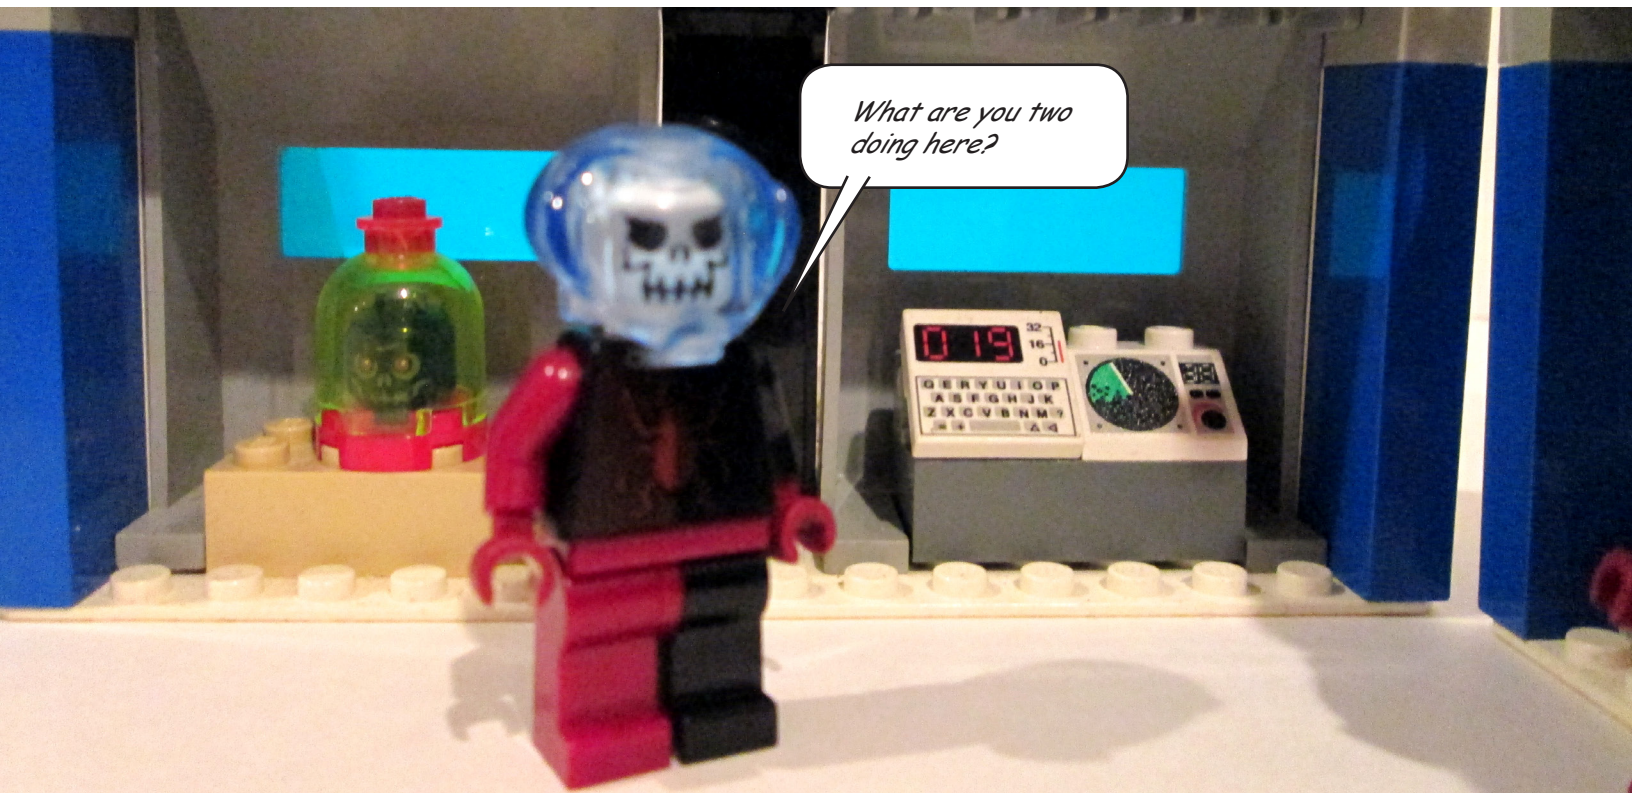

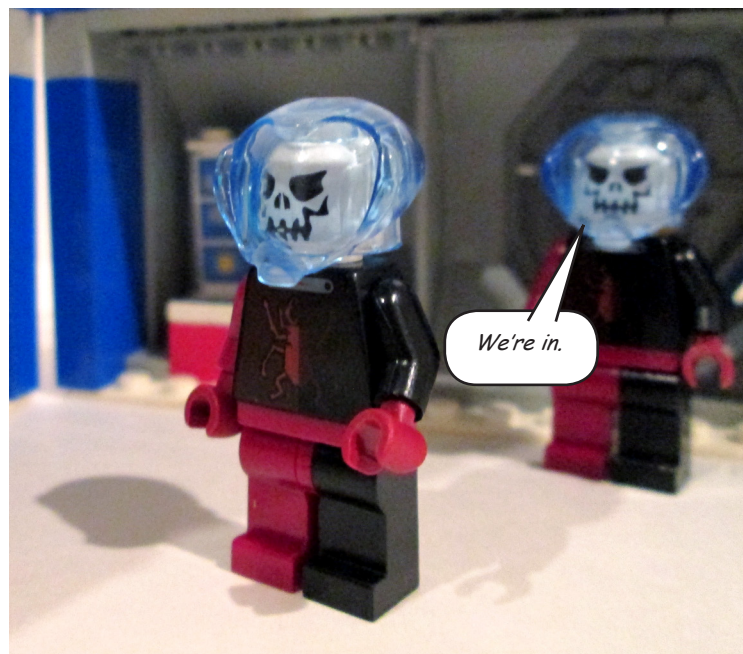

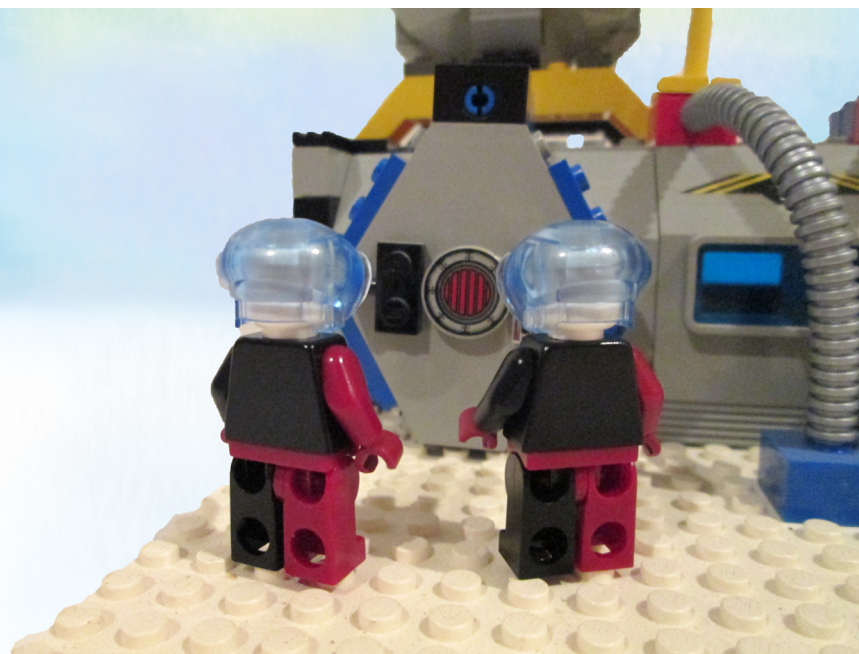

Okay T3, let's see what you can do.

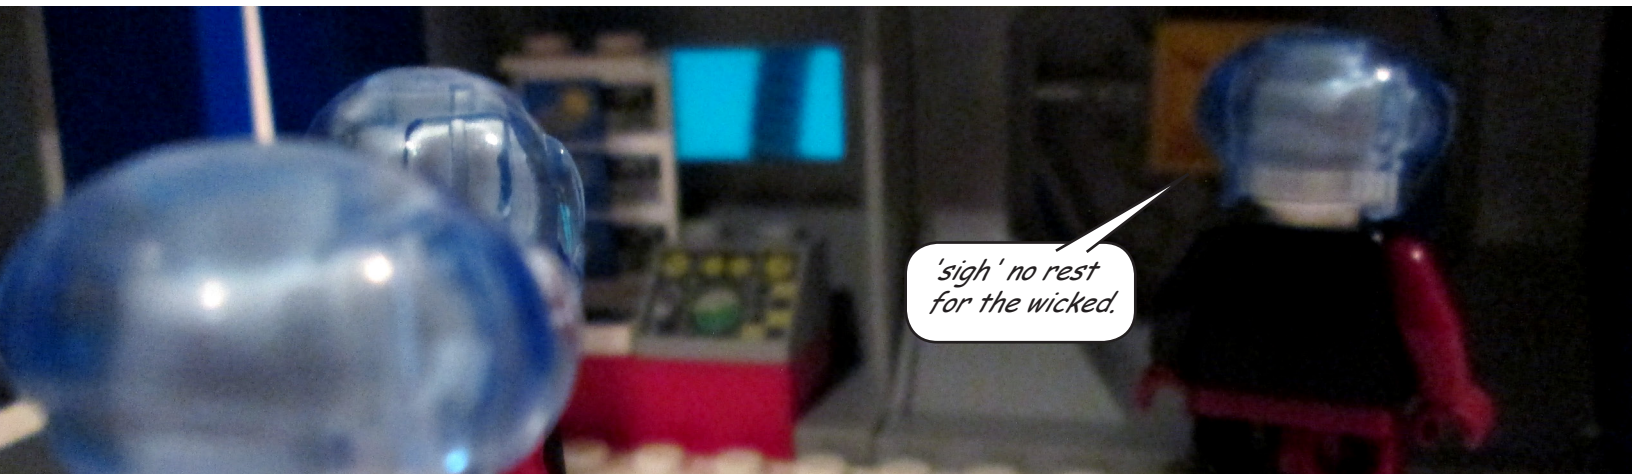

*I'm ready.*

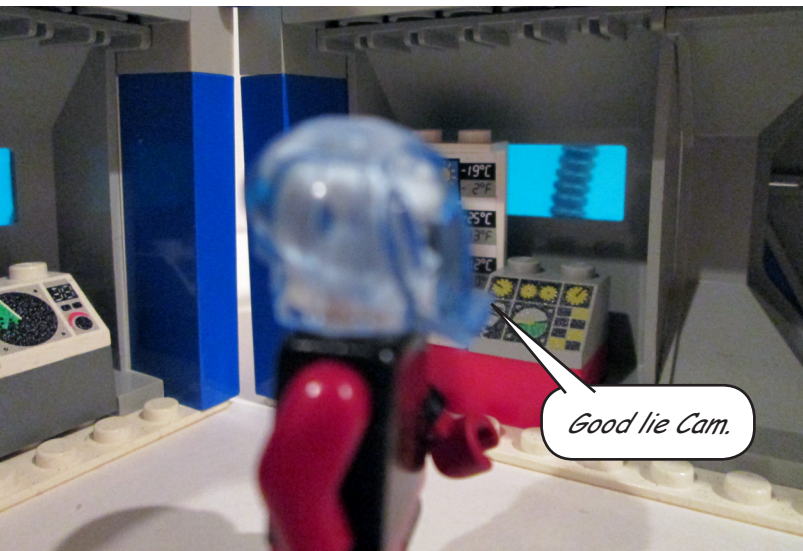

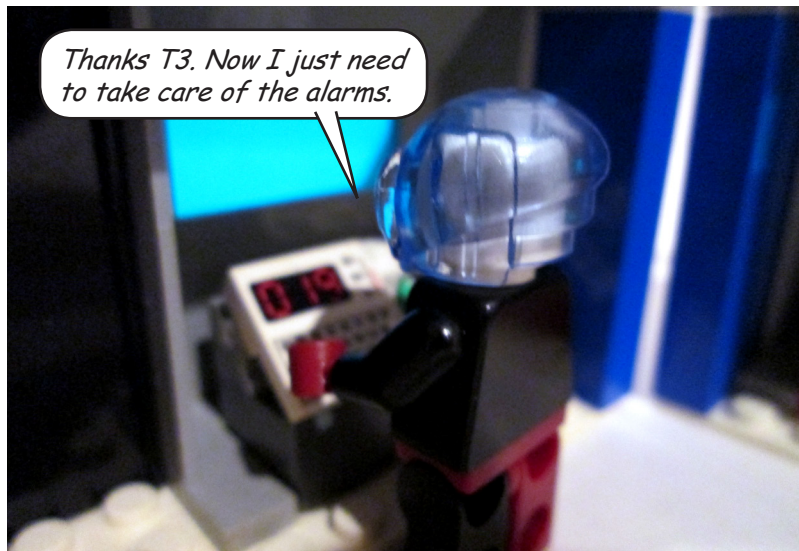

*Ogel needs help in sector 18. He said he could use your help.*

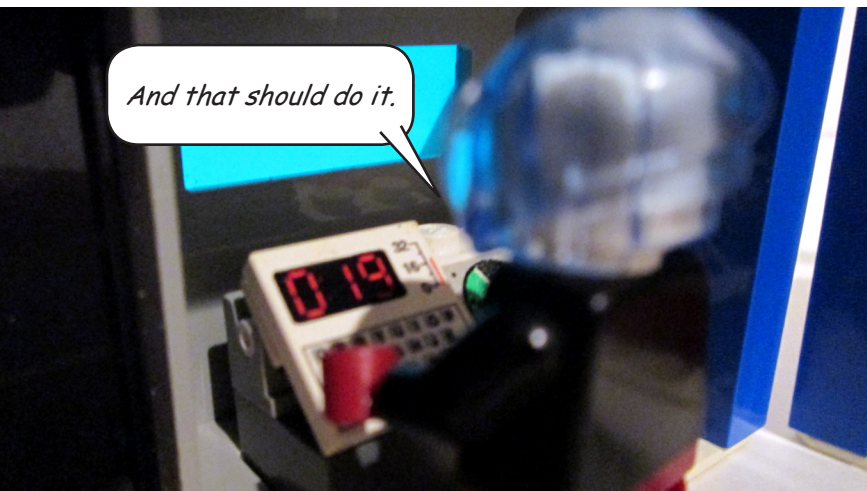

*'sigh' no rest for the wicked.*

*Good lie Cam.*

*Thanks T3. Now I just need to take care of the alarms.*

*And that should do it.*

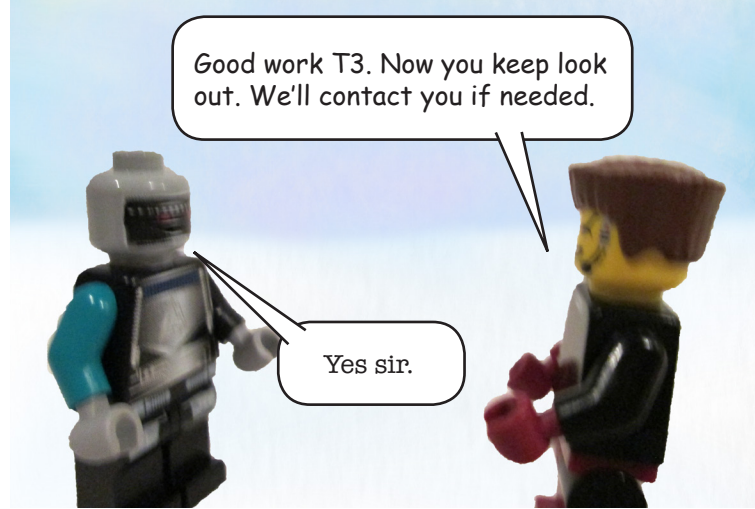

*What have we here?*

Cam sent me out with these uniforms. These should help you blend in.

Good work T3. Now you keep look out. We'll contact you if needed.

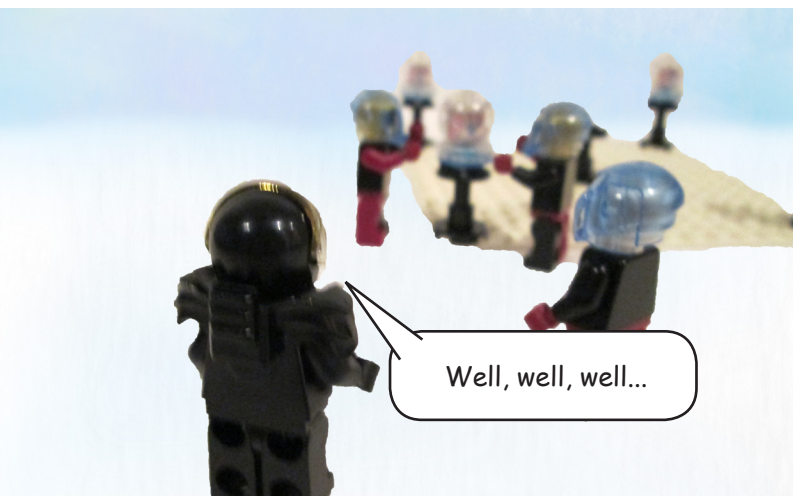

Yes sir.

There they are.

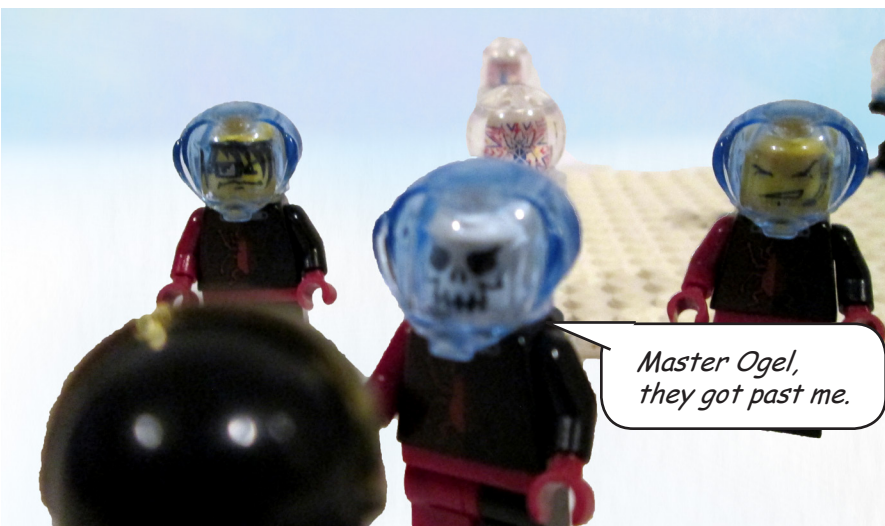

Here we go.

Well, well, well...

... what have we here?

Master Ogel, they got past me.

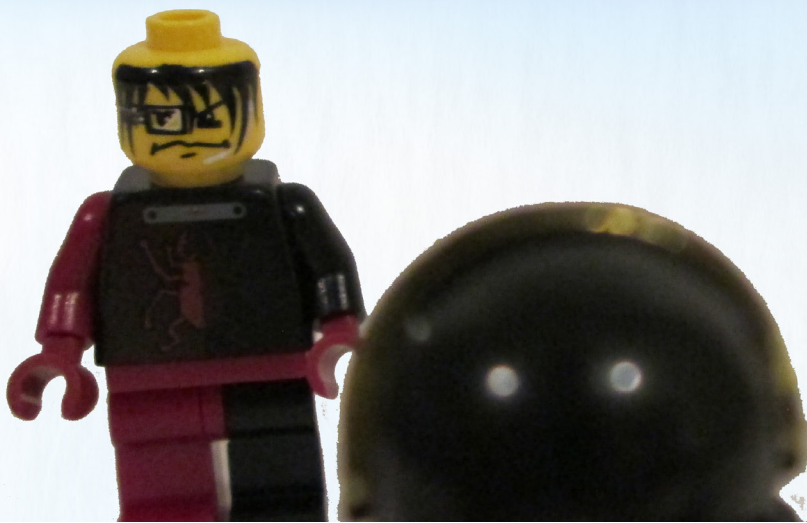

Your loyalty is admirable.

BUT DO YOU THINK I  
CAN'T TELL MY DRONE'S  
APART CAM?

Ogel, this is over!

I agree Dash.

And so does Agent "O".

You're right Dash.  
It *is* over.
